## NBB Bohemia s.r.o.

We are middle-sized fully Czech company involved trading and producing products related to lighting industry (lighting sources, lighting luminaires and energy saving solutions). Our company has been exclusive partner of world-known german brand NARVA for more than 20 years. Due to the wide portfolio of products and long experience in lighting, our company is able to satisfy needs of price oriented customers as well as professional high demanded customers. Thus our product portfolio consists from all main lighting technologies, which enables us to find trully suitable solution for any kind of customer and his needs. We combine the knowlage of lighting sources and luminaires and lighting control. We can offer whole solution from suppling whole lighting system up to servicing. Our company is the direct producer of several types of LED retrofit lamps on E27, 2G11 lampholders.

## Ecology and environment

As the producer and the distributor we are member of several recycling systems (RETELA, EKOKOM, ECOBAT) for collection of used lighting sources and luminaires, batteries and other electronical devices, that can cause polution.

## Our typical customers

Wholesalers of any types, mounting and service companies, large industrial enterprizes, architects, projectants, public sector & municipalities

## Main export markets

Slovakia, Poland, Austria, Germany, Hungary, Netherlands, Serbia, Croatia, Montenegro etc.
